Canesten Dermatological Spray

Uses

For the treatment of fungal skin infections such as ringworm, athlete's foot, jock itch, sweat rash and thrush. Also for skin diseases showing secondary fungal infection. Particularly suitable for large and/or hairy areas.

Dosage

Apply thinly 2-3 times daily for at least 1 month for dermatophyte infections, and at least 2 weeks for candidal and Pityriasis versicolor infections. Should not be used near a naked flame, should not be allowed to come into contact with the eyes, ears or mucous membranes and should not be inhaled.
