

Hedrin 4% Cutaneous Solution

Uses

For the eradication of head lice infestations.

Dosage

Adults and children 6 months and over: apply sufficient lotion to cover dry hair from the base to the tip to ensure that no part of the scalp is left uncovered. Work into the hair spreading the liquid evenly from roots to tips. Leave on the hair for a minimum of 8 hours or overnight, allowing hair to dry naturally. Wash out with normal shampoo and rinse thoroughly with water. Repeat the treatment after 7 days. Children under 6 months should only be treated under medical supervision.
